

Sleep Diary

Seven days. Fill it in first thing while the night is still fresh.

mettletherapy.co.uk - Chris Brotherton, MNCPS (Acc.)

HOW TO USE IT

Fill it in first thing each morning, while the night is still fresh - estimates are fine. Score each night 0 (wrecked) to 10 (genuinely refreshed), and use Notes for anything that might matter: caffeine, alcohol, screens, exercise, mood. After seven days, bring it to your next session or hit Share with Chris.

REFLECT ON YOUR SLEEP

Look back over the last night or two. Bring this to your GP or your next session with Chris.

How did the last two nights compare - better, worse, or disrupted?

What might have affected it? (caffeine, alcohol, screens, stress, pain, meds)

Anything unusual that night? (noise, light, temperature, away from home)

Anything to raise with your GP or Chris?
